

Breezaire Warranty
(Canada/International)

For Canadian/International customers **BREEZAIRE** will follow the warranty for the cooling unit in regards to parts & labor once the unit is at their factory in California. Because of the high cost of shipping, **BREEZAIRE** will work with our customers to trouble shoot over the phone and identify if parts could be sent instead.

BREEZAIRE will often cover the cost of these parts if parts are determined to be a manufacturer's defect. **BREEZAIRE** does not cover labor charges unless the unit is repaired at the **BREEZAIRE** factory. **BREEZAIRE's** warranty does not cover the cost of shipping.
